BACKGROUND

The Jetty Road Mainstreet Committee (JRMC) installed tree lights on Jetty Road at the end of 2013 by Rawson's Electrical, and in early 2015 lighting was installed to four extra trees at the eastern end of Jetty Road which had been delayed while waiting for infrastructure support.

A lighting masterplan has been developed as part of the overall Jetty Road Masterplan, however a time frame for the implementation for this lighting has not yet been developed. Importantly, the JRMC have been working closely with Council to align the project with the masterplan and to determine maintenance schedules post installation.

The existing tree lights were in a state of disrepair and lost the function to change the light colours. In June 2020, these existing tree lights were removed by Council, which then resulted in no ambient lighting in the street, making this project a priority for the JRMC to ensure it is installed in time for Summer. Therefore, due to the placemaking nature of the ambient lighting, the JRMC included funds in the 2020/21 budget for upgrading the Jetty Road lights. This is intended as a solution until the Lighting Masterplan is activated.

REPORT

Quotes for tree lighting were sought from three companies, to comply with Council procurement requirements.

A system has been selected which will allow the trees along Jetty Road to be "washed" in light, from a trunk bracket and utilising existing power connections.

An example of the system will be trialled on one tree in Jetty Road the week beginning 31 August 2020. A verbal update will be provided on the success of this trial.

Examples of the wash system:
