

## ITEM NUMBER: 17.1

### CONFIDENTIAL REPORT

#### UPDATED BRIGHTON OVAL MASTERPLAN – STAGE 2

*Pursuant to Section 83(5) of the Local Government Act 1999 the Report attached to this agenda and the accompanying documentation is delivered to the Council Members upon the basis that the Council consider the Report and the documents in confidence under Part 3 of the Act, specifically on the basis that Council will receive, discuss or consider:*

- b. Information the disclosure of which could reasonably be expected to confer a commercial advantage on a person with whom the council is conducting, or proposing to conduct, business, or to prejudice the commercial position of the council; and would, on balance, be contrary to the public interest.**

**Recommendation – Exclusion of the Public – Section 90(3)(b) Order**

- 1. That pursuant to Section 90(2) of the *Local Government Act 1999* Council hereby orders that the public be excluded from attendance at this meeting with the exception of the Chief Executive Officer and Staff in attendance at the meeting in order to consider Report No: 342/19 Updated Brighton Oval Masterplan in confidence.**
  
  - 2. That in accordance with Section 90(3) of the *Local Government Act 1999* Council is satisfied that it is necessary that the public be excluded to consider the information contained in Report No: 342/19 Updated Brighton Oval Masterplan in confidence on the following grounds:**
    - b. pursuant to section 90(3)(b) of the Act, the information to be received, discussed or considered in relation to this Agenda Item is information the disclosure of which could reasonably be expected to confer a commercial advantage on a person with whom the Council is conducting business; would prejudice the commercial position of the Council.**

In addition, the disclosure of this information would, on balance, be contrary to the public interest. The public interest in public access to the meeting has been balanced against the public interest in the continued non-disclosure of the information. The benefit to the public at large resulting from withholding the information outweighs the benefit to it of disclosure of the information.
  
  - 3. The Council is satisfied, the principle that the meeting be conducted in a place open to the public, has been outweighed by the need to keep the information or discussion confidential.**
-

Item No: **17.1**

Subject: **UPDATED BRIGHTON OVAL MASTERPLAN – STAGE 2**

Date: 24 September 2019

Written By: Manager Assets & Facilities  
Manager Active Communities

General Manager: City Assets and Services, Mr H Lacy

---

### SUMMARY

The Brighton Oval masterplan was approved by Council at its meeting on 22 November 2016 (Resolution No. C221116/581). Since that time, funding has been secured from Council, Federal Government, State Government and Sports Associations to undertake the entire masterplan implementation. Administration has been working with the stakeholders, sporting bodies, suppliers, industry experts (eg civil engineers, traffic engineers, arborists, water experts, electrical engineers, landscape architects and sporting experts) to review and update the masterplan where required.

The updated masterplan, which is being presented for Council endorsement, retains all of the main features of the original master plan and provides improved functionality for the precinct. The main changes from the 2016 masterplan to the current version are:

- Improved car park design and capacity with improved pedestrian linkages;
- Improved landscaping opportunities including Water Sensitive Urban Design;
- Retention and upgrade of the cricket practice nets at the southern end of the oval (rather than relocating to the Northern end);
- Relocating some of the new turf area to the northern end of Rugby field to enable better flow of vehicles within the site with improved north / south vehicle movement;
- Repositioning the Lacrosse storage shed to a more practical location closer to their clubrooms.
- More cost effective upgrades to Highet Avenue with focus on pedestrian safety and improved on-street parking.

Once the updated masterplan is endorsed, detailed design including technical specifications will be developed for the components of the masterplan. Tenders will then be called to undertake the on-ground works coordinating with building construction to minimize disruption to the resident clubs and community, and to reduce construction time. It is anticipated that on-ground works will take around 12 -18 months to be completed.

---

## RECOMMENDATION

### That Council:

1. endorse the updated masterplan;
2. approve Administration to proceed with the design and construction work; and
3. approve a budget allocation of \$5.0m within the 2019/20 Capital Program for implementation of the Stage 2 works subject to finalisation of the \$5.0m Federal Government grant.

### RETAIN IN CONFIDENCE - Section 91(7) Order

4. That having considered Agenda Item 17.1 Updated Brighton Oval Masterplan (Report No: 342/19) in confidence under section 90(2) and (3)( b) of the *Local Government Act 1999*, the Council, pursuant to section 91(7) of that Act orders that the report, attachment and minutes be retained in confidence for a period of 18 months and/or the Chief Executive Officer is authorised to release the documents when finalisation of tenders and that this order be reviewed every 12 months.

---

## COMMUNITY PLAN

Placemaking: Creating lively and safe places

Placemaking: Developing walkable connected neighbourhoods

Placemaking: Building character and celebrating history

Community: Building a healthy, active and resilient community

Community: Celebrating culture and diversity

Community: Providing welcoming and accessible facilities

Community: Fostering an engaged and contributing community

Environment: Fostering an environmentally connected community

## COUNCIL POLICY

Not Applicable.

## STATUTORY PROVISIONS

Development Act 1993

## BACKGROUND

The masterplan for the Brighton Oval development was approved by the Council on 22 November 2016.

*Refer Attachment 1*

The following recent reports indicated that Stage 1 of Brighton Oval development (ie construction of three (3) new clubrooms) are progressing as planned. They also indicated that the masterplan for the Brighton Oval Stage 2 works has been finalized in consultation with the stakeholders.

- Council Report No: 278/19; Item No 14.1 Items in brief, 23 July 2019
- Council Report Items in brief on 27 August 2019

## REPORT

This report provides the final draft of the updated Brighton Oval masterplan. The updated masterplan retains all of the main features of the original masterplan and improves some of the features.

*Refer Attachment 2*

This updated masterplan also includes significantly more details than the original masterplan which was presented as a high level concept. The details have been identified and included with help of stakeholders and experts such as civil engineers, traffic engineers, arborists, water experts, electrical engineers, landscape architects and sporting experts. The main components of the masterplan include:

1. Three (3) new clubroom building upgrades
2. Improved sub-surface drainage to playing fields (rugby, football / cricket and lacrosse)
3. Car parks (6 locations) and associated curbing
4. Playspace and fitness station
5. New 3 on 3 basketball court
6. Highet Avenue pedestrian and parking upgrades
7. Power supply upgrades (transformer, lighting and reticulation)
8. Storm water drainage
9. Landscaping including water sensitive urban design
10. Rugby warm up area
11. Oval fencing
12. Cricket net upgrades
13. Wayfinding and entrance signs
14. Sports lighting & score boards
15. New storage sheds (including relocated curator shed)
16. Telstra Mobile Tower (details to be finalised)

It should be noted that it is still proposed to remove some trees on the eastern side of the football oval which are considered at the end of their life. These trees were not shown to be retained on the original masterplan. New tree planting combined with water sensitive urban design is proposed to replace the removed trees. The significant trees on the northern boundary (north of the football oval), the tree immediately south of the new Rugby Club and the gum to the west of the Lacrosse club will be retained and proposed works have been adjusted around them.

The updated masterplan seeks to achieve 306 car parking bays on-site which is an important change, given the high demand for parking within the precinct and surrounding street network. Significantly, the community open space is still retained within the new designs also. The current number of car parks at Brighton Oval is 226. The original masterplan proposed approximately 274 car parks. A comparison of the original masterplan car parking plan and the present masterplan is as follows:

**Table 1: Car Parking Comparison**

| Car parks     | Original Masterplan | Updated Masterplan |
|---------------|---------------------|--------------------|
| North western | 92                  | 40                 |
| Western       | 30                  | 40                 |
| South central | 70                  | 104                |
| South east    | 0                   | 21                 |
| Eastern       | 66                  | 85                 |
| North eastern | 16                  | 16                 |
| <b>Total</b>  | <b>274</b>          | <b>306</b>         |

Other changes since the original plan was endorsed in 2016 include:

- Improved car park design and increased capacity with improved pedestrian linkages;
- Improved landscaping opportunities including Water Sensitive Urban Design;
- Retention and upgrade of the cricket practice nets at the southern end of the oval (rather than relocating to the Northern end);
- Relocating some of the new turf area to the northern end of Rugby field to enable better flow of vehicles within the site with improved north / south vehicle movement;
- Repositioning the Lacrosse storage shed to a more practical location closer to their clubrooms; and
- More cost effective upgrades to Highet Avenue with focus on pedestrian safety and improved on-street parking.

Once the updated masterplan is endorsed by Council, the next stage is to undertake detailed design of the components of the updated masterplan. Once the detailed design and specifications are complete, tenders will be called to undertake the works. At that stage the works are likely to be staged in four packages:

Stage 1 – Rugby club precinct (as this building is first to be completed)

Stage 2 – Football and cricket precinct

Stage 3 – Lacrosse precinct

Stage 4 – Highet Avenue upgrade.

It is anticipated that on-ground works will take around 12 - 18 months to be completed. The completion date will depend on a number of factors including seasonality of sports, access to playing fields for drainage upgrades. It is anticipated that the works will commence late November 2019. Administration have received a draft Deed of Agreement from the Federal Department of Infrastructure, Regional Development and Cities to finalize the \$5 million. This is expected to be approved by the Federal Minister in early October.

**Consultation**

A number of meetings have been held with sporting clubs resident at Brighton Oval including the Brighton Croquet club and the Rugby, Football/Cricket and Lacrosse Clubs. Copies of the draft masterplan have been provided to the club representatives with several meetings and other correspondence taking place. Numerous changes to the masterplan have been made reflecting these discussions, but still delivering the overall objectives of the plan.

A webpage, [www.brightonoval.com.au](http://www.brightonoval.com.au) has been developed to communicate latest developments relating to the project to the wider community. Along with the updates of the Brighton Oval building construction, monthly updates of the external works are being provided to Council.

**BUDGET**

The works packages are estimated to cost \$5.0 million and will be subject to competitive tenders. Cost and time savings will be sought by undertaking a value management assessment of each sub-project as we progress through the project. Attachment 3 shows the final cost estimations for the remaining site works, estimated at \$4.99 million.

*Refer Attachment 3*

**LIFE CYCLE COSTS**

Once the development is completed, the asset, component lives, and their values will be included in the asset register. The regular maintenance costs will be appropriately shared between the lessee and the Council. The required replacements and the associated costs will be included in the relevant asset management plan.
