1. Introduction

Intuito is delighted to present the findings for Council's biennial Business Confidence Study which is designed to measure business confidence and evaluate this against a national quarterly business study. The aim is to identify where local businesses sit against a national framework. This is the third study of its kind whereby Intuito conducted studies in 2015 and 2017 and compared the findings with the Australian Chamber of Commerce Business Confidence Survey in 2015 and the National Sensis study in 2017. The findings for this 2019 study will be compared with the latest Sensis Business Index which was published in November, 2019 and based on the Q3 of the calendar year.

Specific objectives for the Business Survey include:

- Ascertain current and forecast level of business confidence of 300 Holdfast Bay businesses and service providers and align the survey with the national Sensis Business Survey of SMEs.
- Seek opinions on how the City of Holdfast Bay can develop strategies that will support business conditions.

Methodology

A combination of online and intercept methods were deployed in order to achieve the sample of 300 business decision makers in order that it matched Council's industry profile and geographic spread and deliver the widest representative coverage. Industry type and geographic location will be used as variables within the analysis of the data to determine variations if they exist.

Business surveys are notoriously difficult to achieve responses as many business owners claim disinterest and busyness as the primary excuses for lack of engagement. They generally struggle with understanding the benefit associated with Council's need for undertaking the survey. The online sample was obtained by using email addresses compiled from the previous studies, Jetty Road traders and additional databases provided by the Business Development unit within Council. This data was derived from the ABN open source databases and further supplemented by previous business users of Council's YourView platform, merged into separate datasets segmented by suburb within the Holdfast Bay Council precinct

The quality of the ABN data was particularly poor with the first round of invitations across each dataset producing undeliverable emails of between 12% and 19%, averaging 15% undeliverable in the first instance. Subsequent requests to remove recipients were received with each round of reminders. The requests were based on not being a business, not conducting business within the precinct, contact no longer relevant, not interested.

| Data set | Original Total | Undeliverable | Revised Total |
|---------------------------------------|-----------------------|---------------|----------------------|
| Glenelg Jetty Road & past respondents | 763 | 19% | 618 |
| Glenelg North | 829 | 14% | 715 |
| Glenelg South | 373 | 16% | 313 |
| Glenelg East | 646 | 13% | 561 |
| Brighton | 553 | 14% | 470 |
| Brighton North | 286 | 12% | 252 |
| Hove | 433 | 14% | 374 |
| Somerton Park | 828 | 17% | 688 |
| Seacliff | 335 | 12.5% | 293 |
| Total | 5,046 | 15% | 4,288 |

* Note: Seacliff Park data was not sent as the majority of addresses fell into the City of Marion precinct.

The online invitations were despatched on Wednesday 6 November and remained active until Wednesday 4 December. Two reminders were sent during this period to encourage participation.

Responses were supplemented with intercept interviewing and whilst the interviewer carried a tablet for immediate completion, there were several instances that required the interviewer to return in order to meet with the business decision maker. The interviewer was in the field from Tuesday 19 November through to Wednesday 4 December and visited locations in Glenelg, Somerton, Brighton and Hove.

| Hosting Platform | Visitors | Complete | Completion Rate |
|---------------------------------------|----------|----------|--------------------|
| Intuito online | 123 | 76 | 62% |
| Your Business Holdfast Bay (YourView) | 308 | 92 | 30% |
| Subtotal online | | 168 | 56% |
| Intercepts | 132 | 133 | 100% |
| Subtotal intercept/face to face | | 133 | 44% |
| Total | 563 | 301 | 53% |

As with the previous surveys, an incentive to maximise responses was offered in the form of a \$200 shopping voucher.

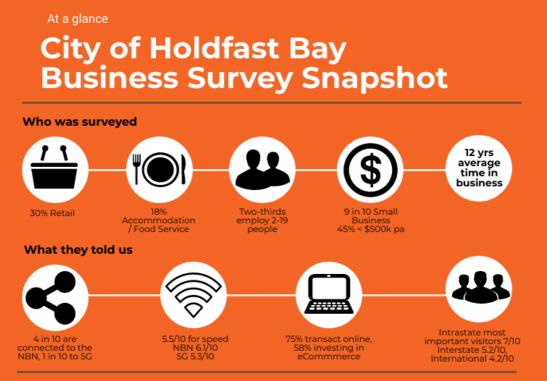

The survey consisted of 24 questions and took an average of 9 minutes to complete.

As a part of the analysis a business confidence index will be applied to the results outcomes with comparisons made against the national, state and local economies. Furthermore comparisons will be made against the 2015 and 2017 findings where practicable.

The business survey questionnaire can be found at the back of this report.

2. Findings at a glance

 Expectations for the SA economy over the next 12 months are slightly higher when compared to the National or local economy.

- Just 21% of local businesses expect the local economy to be stronger with just over a third expecting a
 weaker outlook and 44% the same.
- Local businesses are less confident about the National economy compared to the Sensis Business Index sample however more confident about the SA economy than the Sensis sample.
 Clenels & Sensitif husinesses medium sized husinesses these operating for 114 years and retail are
 - Gleneig & Seacliff businesses, medium sized businesses, those operating for 11+ years and retail are more likely to expect the local economy to weaken.

Business KPI's

 (\cdot)

 7 out of 12 KPI's indexed positively.
 Average wages, non wage labour costs, selling prices, and overtime worked were

negative.
Export sales and investment in buildings and structures show growth for Q4.

Local Business Confidence

Confidence is slightly down against the National & SA Sensis figures

Prime concerns

- Costs or overheads
- Economic climate
- TaxesLack of work or sales
- Slightly more businesses claiming no problems this survey (12% compared to 9% in 2017

Barriers to hiring

- 4 in 10 say they do not need
- more staff.
 62% claim cost of employing, finding suitable/quality staff, lack of work/sales and profitability/lack of profits are the main barriers.

Profitability

- 77% believe profitability is
- declining in the retail sector.
 Cost of rent most prevalent factor followed by local economy, cost of labour, lack of sales
- Cost of power is less of an issue this survey compared to the last indicating a very different environment.

At a glance

communication with business of grants and other assistance, Council needs to do more to attract business to the

area, generally offer more support for business and some safety concerns in and around Glenelg.

3. Executive Summary

About the respondents

Six in ten businesses that were surveyed were Glenelg businesses and four in ten were from a mix of Somerton Park, Brighton, Hove and Seacliff. Around half of the sample (48%) of the businesses were Retail or Accommodation and Food Services but 14 other industry sectors were represented in smaller percentages. The average length of time in business in the area for this sample was 12 years with the largest percentage of newer businesses of 0-5 years followed by an even spread of 6-10 years, 11-20 years and 20+ years. The majority of businesses employ 2-19 people (65%) but single employee businesses was relatively high at 28%. The vast majority of businesses (93%) were small businesses with only 7% being medium. There were no large businesses employing over 200 people in the sample.

45% of the sample had a turnover of less than \$500,000 per annum, with 18% \$500,000-\$1 million pa, 9% \$1 million to \$2 million, and 6% \$2 million to \$5 million. There were considerably more businesses this year that preferred not to say their annual turnover (21%). The employment ratio has remained the same at slightly more females than males, with considerably more skilled workers than unskilled, and there are slightly more full time workers than part time.

Internet connection

Nearly four in ten businesses say they are connected to NBN but there was nearly a quarter of all businesses who did not know if they were connected and a further quarter who gave other responses such as ADSL. This compares to only 4% of businesses two years ago who claimed to be connected via NBN. 12% of businesses say they are connected via 5G. Interestingly 73% of Hove businesses claim to be connected to the NBN, 54% of Seacliff businesses, 49% of Brighton and Somerton Park businesses but only 28% of Glenelg businesses.

All businesses were asked how satisfied they were with the speed of their internet connection and the overall rating was 5.5 out of 10. Those connected to NBN rated it higher at 6.1, and those connected via 5G rated it 5.3.

Businesses transacting online and eCommerce

There has been a steep increase in the percentage of businesses transacting online with 75% of all businesses doing so in 2019 compared to only 35% in 2017.

There has also been an increase in the percentage of businesses investing in eCommerce from 44% in 2017 to 58% in 2019. Those more likely to invest in eCommerce are Somerton Park and Brighton businesses, those who have operated for more than 20 years, medium sized businesses, and those turning over \$500,000-\$5 million. Those least likely to invest are Seacliff and Hove businesses, those businesses that have operated for 6-20 years and those businesses turning over less than \$500,000pa.

Importance of visitors to local businesses

Intrastate visitors are rated the most highly at 7 out of 10 (although this has slipped from to 7.5 in 2017). Interstate visitors are rated second highest at 5.2 which is exactly the same as 2017 and international has increased from 3.7 to 4.2.

Expectations for economic performance in the next 12 months

Expectations are slightly higher for the South Australian economy over the next 12 months compared to the National or local Council area economies. The local economy expectations show 20.6% of businesses expect it to be stronger, 43.9% the same and 35.5% weaker. In 2017 the figures were similar (19.4% stronger, 49% same, and 31.5% weaker so there are more businesses that are pessimistic in 2019 compared to 2017).

When we compare our sample to that of confidence in the National economy against the National Sensis Business Index, our sample is less confident about the next 12 months. However, our sample is considerably more confident in the South Australian economy compared to Sensis.

Those expecting the local economy to weaken are more likely to be Glenelg and Seacliff businesses, those businesses that have operated for 11+ years, medium sized businesses, those businesses turning over \$1 - \$50 million and the Retail Trade.

Business KPIs for Q3 compared to expectations of Q4 in 2019

Of the 12 business KPIs, 7 indexed positively. Those that indexed negatively were average wages, non-wage labour costs, selling prices, and overtime worked.

| КРІ | Q3 2017 | Q3 2019 | Movement | Q4 2019 |
|--|---------|---------|--------------|---------|
| General business conditions | 43.3 | 59.44 | \uparrow | 45.28 |
| Total sales/revenue | 45.65 | 54.95 | \uparrow | 42.01 |
| Average wages | 58.79 | 46.99 | \checkmark | 43.35 |
| Export sales | 45.19 | 58.91 | \uparrow | 52.12 |
| Non-wage labour costs | 64.35 | 39.03 | \checkmark | 37.82 |
| Selling prices | 51.90 | 49.21 | \checkmark | 46.40 |
| Profitability | 36.92 | 61.65 | \uparrow | 49.81 |
| Number of employees | 45.75 | 51.50 | \uparrow | 48.65 |
| Overtime worked | 52.89 | 50.47 | \checkmark | 46.28 |
| Investment in buildings and structures | 38.61 | 52.11 | \uparrow | 51.20 |
| Investment in plant and equipment | 43.86 | 48.51 | \uparrow | 50.00 |
| Investment in eCommerce | 42.23 | 47.51 | \uparrow | 48.28 |

Moving into Quarter 4 however, the indices show a decline in almost all KPIs with two exceptions (export sales and investment in buildings and structures).

Business confidence

52% of local businesses report feeling confident about their prospects for the year ahead with 20% feeling worried. Confidence is down slightly compared to the National and South Australian Sensis confidence figures although it is not significant.

| Confidence level | Local Council Area | South Australia | National |
|------------------|--------------------|-----------------|----------|
| Confident | 52.2% | 55% | 56% |
| Worried | 19.9% | 21% | 20% |
| Net balance | +32.3 | +34 | +36 |

Prime business concerns

The prime business concerns are costs or overheads, economic climate, taxes and lack of work or sales. Three of these concerns (except taxes) are the same as 2017 but cash flow, bad debts and profitability was higher in 2017 as was competition. There are slightly more businesses (12% compared to 9% in 2017) that say they have no problems at the moment.

Barriers to hiring new staff

Nearly four in ten businesses say they do not need more staff. The remaining 62% claim that the cost of employing, finding suitable/quality staff, lack of work/sales and profitability/lack of profits are the main barriers to hiring new staff.

Retail sector profitability

Just over three quarters of all businesses believe that profitability is declining in the retail sector with a further 16% who say they do not know. Only 8% believe it is not. These figures are similar to the 2017 figures.

Factors affecting profitability

Whilst power costs was the most quoted factor in 2017 this has slipped to fifth place. Cost of rent is the most prevalent factor in 2019, followed by local economy, cost of labour and lack of sales. The current environment is considerably different to that of 2017.

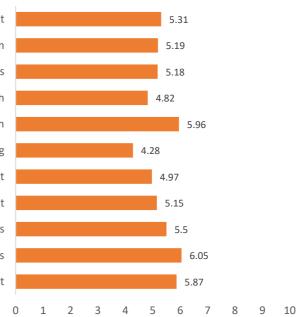

Business with Council and ratings for experience

Only 17% of the total sample had done business with Council in the last 12 months and the reason for doing business was again varied and disparate.

This year for the first time we asked all respondents to rate the experience in doing business with Council. There were 11 types of experiences and the ratings ranged from 4.28 to 6.05 out of 10.

Rating the experience in doing business with Council

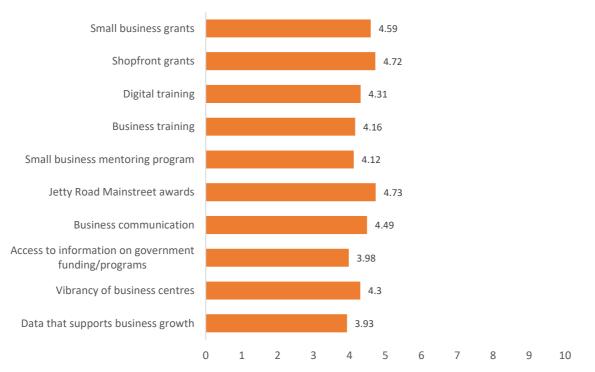

Interaction with Business Development Interaction with Jetty Road (Glenelg) Coordination Delivery of planning and building permits Town Planning initiatives that plan for future growth Delivery of food safety & health inspection Delivery of traffic management and parking Delivery of traffic management and parking Delivery of footpath trading management Delivery of local laws/enforcement Maintaining shopping precincts Facilitation of major events/cultural festival/attractions Waste and environmental management

Satisfaction ratings with Council's support for business

For the first time we also asked respondents to rate their level of satisfaction with various Council business initiatives. The ratings we believe are low possibly due to a low level of awareness of the initiatives.

Satisfaction ratings for Council's support for business in the area

Other comments

116 respondents chose to provide other suggestions or ideas to Council to support better business conditions. The common themes were the perennial parking problems, Jetty Road Glenelg looking tired and dull, better communication with business of grants and other assistance, Council needs to do more to attract business to the area, generally offer more support for business and some safety concerns in and around Glenelg.

Conclusions

Factors have changed for local businesses since 2017 but many things have remained the same. NBN connections have expanded significantly over the past 2 years as has the incidence of businesses investing in eCommerce. Intrastate visitors are the most important compared to interstate or international.

Business attitude to the State economy is more positive than for the National economy but there are slightly more local businesses that are pessimistic than there were two years ago. Confidence levels are lower than the comparative National Sensis Business study and Glenelg and Seacliff businesses are more likely to expect the local economy to weaken in the next 12 months.

Business KPIs for Q3 have improved considerably between 2017 and 2019 with the exception of average wages, non-wage labour costs, selling prices and overtime worked, however, the Q4 outlook is trending downwards. The primary concerns remain similar to 2017 and are costs or overheads,

economic climate, taxes and lack of work or sales. Barriers to hiring new staff are similar to 2017 and are the cost of hiring, finding suitable staff, lack of work sales and lack of profits.

It appears to be a well-held belief that profitability in the retail sector is declining with over three quarters of all businesses agreeing – this is very similar to two years ago. The major factors affecting business profitability are the local economy, cost of labour and lack of sales and the current environment which is very different to that of 2017.

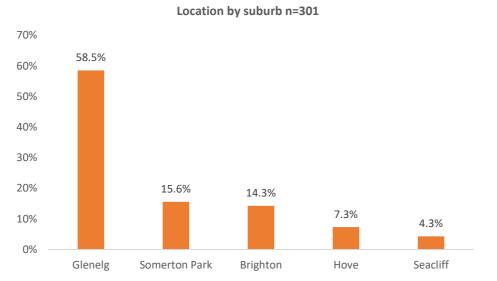

Similar numbers of businesses this year had conducted business with Council as there were two years ago. Businesses were asked to rate their experience and the ratings were poor to average as were their satisfaction ratings for the support Council gives to business but we believe this might be more a factor of lack of awareness of Council's initiatives – a factor that could be rectified with communication strategies moving forward.

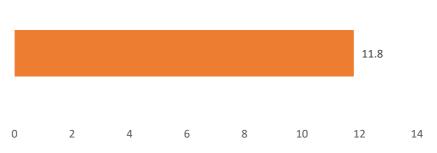

4. Key Findings

Q1. In which suburb is your business located?

The above percentages show nearly six in ten businesses surveyed operating out of Glenelg (Glenelg East, Glenelg South and Glenelg North), with four in ten outside of Glenelg including Brighton (South and North), Somerton Park, Hove and Seacliff.

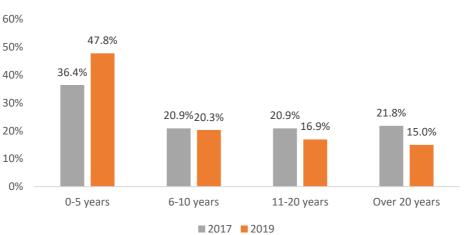

Q2. How long has your business operated in the City of Holdfast Bay Council area?

Average length of operation in the CoHB area n=301

The mean length of time across all businesses surveyed was 11.8 years with a median of 7 years and a mode (the most commonly nominated number) of 1. This compares to a mean of 14.7 years, a median of 9.5 years and a mode of 3 in 2017. This indicates that there are many new businesses in the area but we caution that some of the difference may be due to sampling.

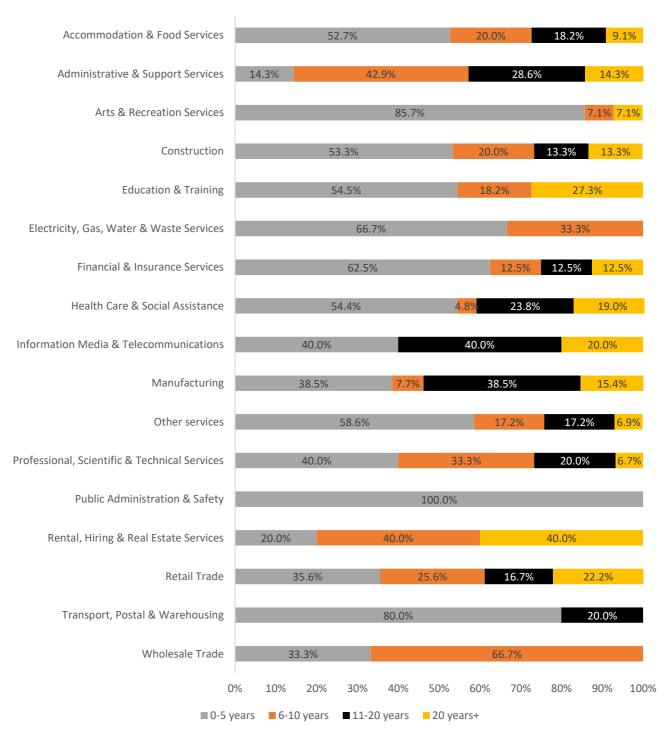

Percentage of businesses by number of years in operation n=301 2017 and 2019

We surveyed more businesses that have operated a short time this year than in 2017. Businesses in Brighton and Hove are more likely to have operated for 0-5 years. Seacliff businesses are more likely to have operated for 6-10 years. Somerton Park businesses are more likely to have operated for 11-20 years and Somerton Park and Hove businesses and medium sized businesses are more likely to have operated for over 20 years.

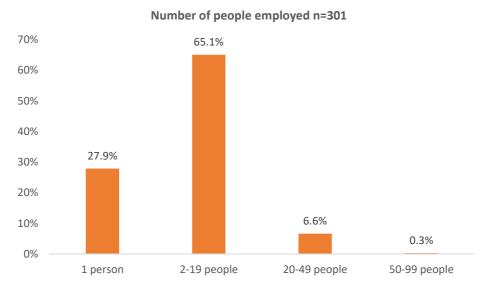

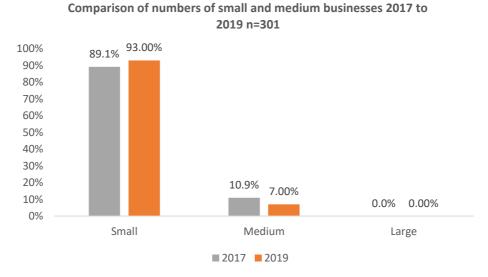

Length of operation by industry sector n=301

Q3. How many people (including management and owners) did your business employ in the current quarter (September 2019)?

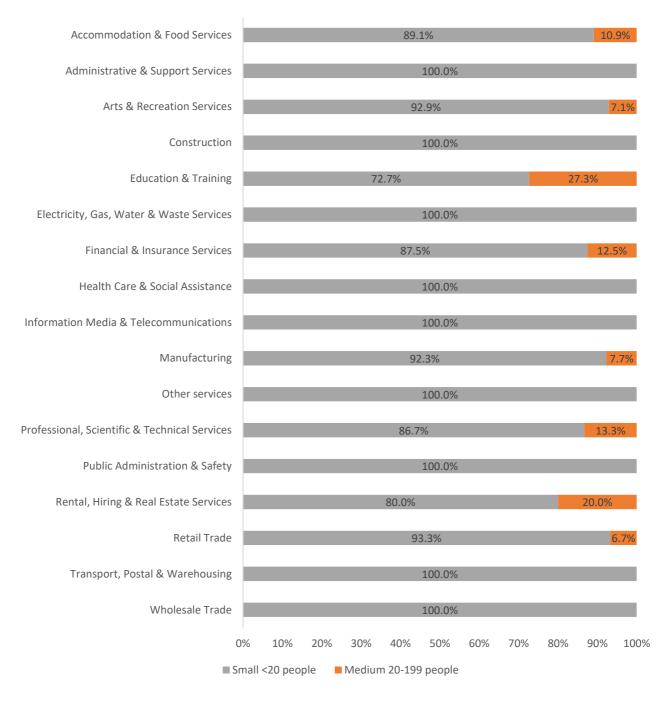

The majority of businesses employ 2-19 people.

This year (as in 2017) all businesses are classified as SME's with 93% of the businesses being small (less than 20 employees) and 7% medium sized (20-199 employees). There are slightly more small businesses this year compared to 2017.

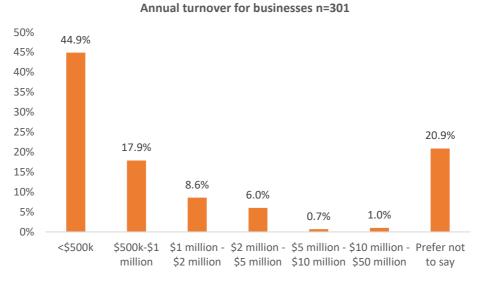

Size of business by industry sector n=301

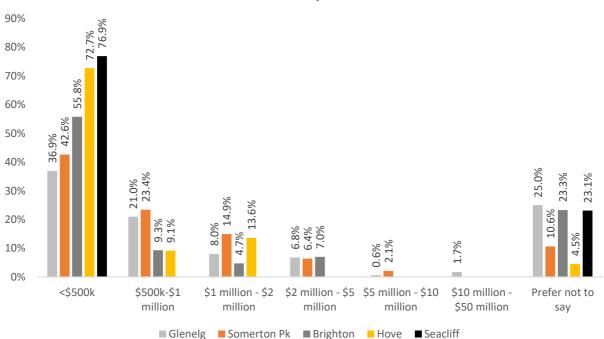

Q4. What is your annual turnover range?

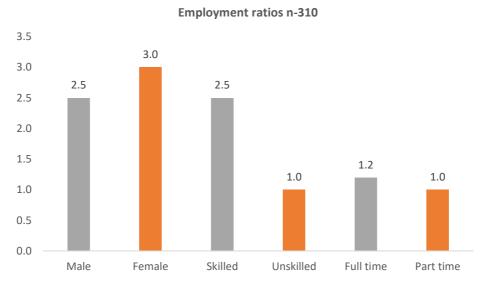

The annual turnover figures are similar to 2017 but this year we encountered considerably more businesses that preferred not to reveal their turnover (21% compared to 13% in 2017).

Annual turnover by suburb n=301

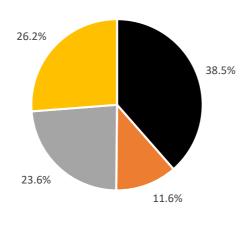

Q5. What ratio of each of the following do you employ on a full time basis to the nearest 10 percent?

The above ratios are very similar to 2017. Male and female ratios are the same but this year we did ask people to nominate if they were non binary (16 people out of 301 indicated that they were) but we have not included this in the above ratios as a ratio can only be between two points. There are slightly more full time workers this year than in 2017.

Q6. Which of the following internet connections does your business currently use?

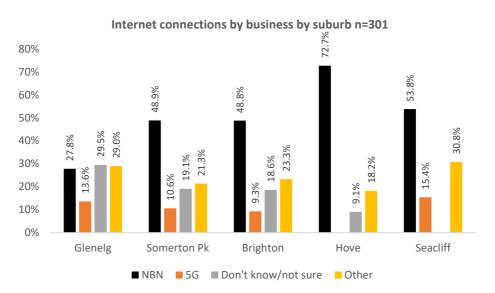

Incidence of internet connections all businesses n=301

■ NBN ■ 5G ■ Don't know/not sure ■ Other

Nearly four in ten claim their internet connection is with NBN compared to 12% with 5G. The other responses were mostly ADSL or other derivatives meaning that some people do not understand a lot about their internet connection. These figures are considerably higher than 2017 where only 4% of all businesses claimed to be connected to NBN.

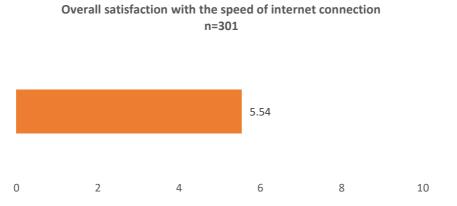

Medium sized businesses are more likely to nominate an NBN connection, those that have been in business 6-10 years, those turning over less than \$500,000pa and those businesses inC, education and Training, Financial and Insurance Services, Health Care and Social Assistance, Manufacturing, Professional, Scientific and Technical Services and Transport, Postal and Warehousing.

Those more likely to nominate 5G as their internet connection are also medium sized, who have operated over 20 years, and in the industry sectors of Arts & Recreation Services, Construction, Transport, Postal & Warehousing, Wholesale Trade and Other Services.

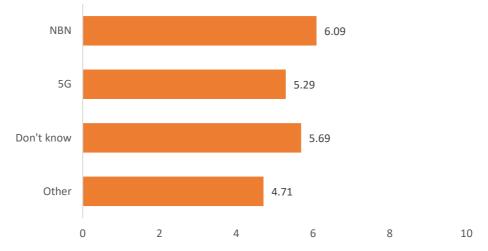

Q7. On a scale of 0 to 10, where 0 is totally dissatisfied and 10 is totally satisfied, how satisfied are you with the speed of your internet connection?

The overall satisfaction is low at 5.5. The level of satisfaction has not improved since 2017 where it also scored 5.5 for connection (although it did not specify speed in the last iteration of this survey). Those businesses operating from Brighton and Hove are more likely to rate the connection above the average.

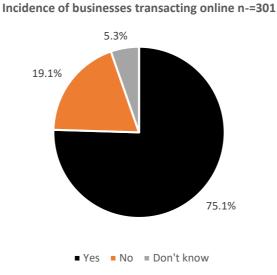

Satisfaction of speed of internet by provider n=301

NBN is the most highly regarded of other options but it is still a poor rating at 6.1 out of 10.

Q8. Does your business transact online?

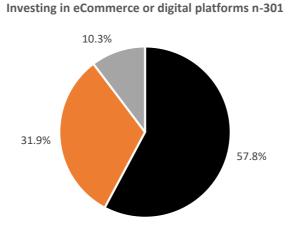

Three quarters of businesses claim to transact online. Those more likely to do so are medium sized businesses, those turning over \$1-\$2 million, and those in Administrative & Support Services, Arts & Recreation Services, Construction, Education and Training, Financial & Insurance Services, Information, Media & Telecommunications, Professional, Scientific & Technical Services, and Public Administration & Safety.

There has been a substantial increase in the number of businesses transacting online since 2017 when only 35% of businesses claimed to do so.

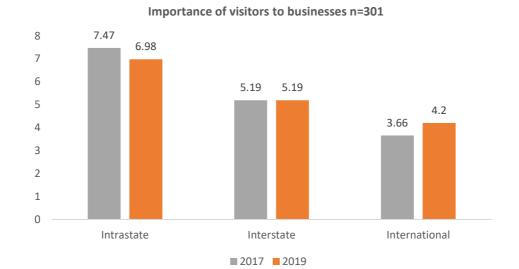

Q9. Do you invest in eCommerce or digital platforms to aid business transactions? i.e. buying and selling of goods and services, or transmitting funds or data, primarily using the internet.

Yes No Don't know

58% of all businesses surveyed claim to invest in eCommerce or digital platforms compared to only 44% in 2017. Those more likely to invest are businesses in Somerton Park and Brighton, those who have operated for more than 20 years, medium sized businesses, those turning over \$500,000-\$5 million and those offering Art & Recreation Services, Electricity, Gas, Water & Waste Services, Financial & Insurance Services, Public Administration & Safety, and the Retail Trade.

Those least likely to invest are Seacliff and Hove businesses, those businesses that have operated between 6 and 20 years, and those businesses turning over less than \$500,000pa.

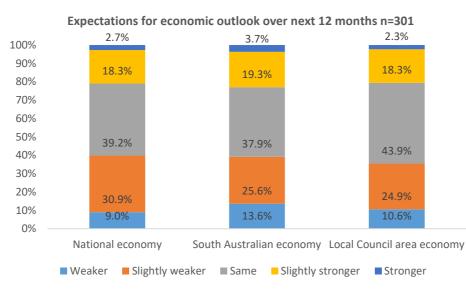

Q10. On a scale of 0 to 10, where 0 is totally unimportant and 10 is totally important, how important are intrastate, interstate and international visitors to your business?

Similar results have occurred this year compared to 2017. Those more likely to rate intrastate important over the average are businesses in Glenelg, those that have operated for 11+ years, medium sized businesses, those turning over \$2-\$5 million and those offering Accommodation & Food Services, Electricity, Gas, Water & Waste Services, Rental, Hiring & Real Estate Services, Retail Trade, Transport, Postal & Warehousing and Wholesale Trade.

Those businesses more likely to rate interstate important over the average are businesses in Glenelg, those operating for 6-10 years and over 20 years, and those offering Accommodation & Food Services, Rental, Hiring & Real Estate Services, Retail Trade, and Transport, Postal & Warehousing.

Those businesses more likely to rate international important over the average are businesses in Glenelg, that have been in business 6-10 years and over 20 years, medium sized businesses, and those offering Accommodation & Food Services, Public Administration & Safety, Rental, Hiring & Real Estate Services, Retail Trade and Transport, Postal & Warehousing.

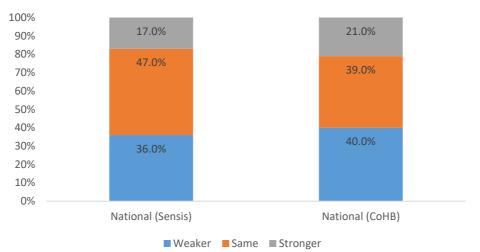

Q11. How do you expect the following economies to perform over the next 12 months?

Confidence in the economies has worsened somewhat since 2017 with a greater percentage of businesses expecting economies to be slightly weaker and weaker at the expense of stability. The same percentage of optimists remain however.

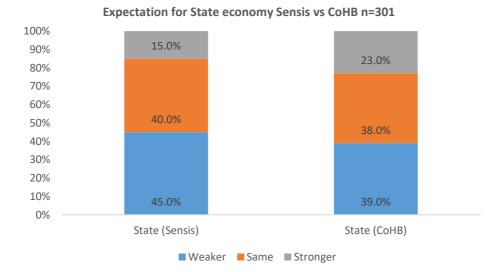

National economy

Expectation for National economy Sensis vs CoHB Survey n=301

Whilst the local Council businesses feel slightly more pessimistic than the National Sensis study of 1,000 SME's across Australia toward the National economy, local CoHB confidence is slightly higher than the national average at the expense of remaining the same. The local community are less confident in 2019 when compared to 2017 with only 26% thinking the national economy would be weaker, 52% staying the same and the same number (22%) thinking it will improve in 2017.

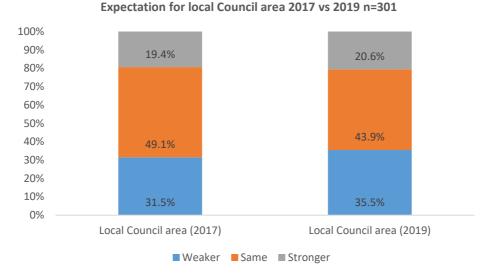

South Australian economy

The local Council businesses are more optimistic about the South Australian economy than the National Sensis average with fewer thinking it will be weaker, roughly the same thinking it will remain stable and more that think it will be stronger. This State expectations have improved since 2017 when 43% thought it would weaken, 40% stay the same and 17% be stronger.

Local Council area economy

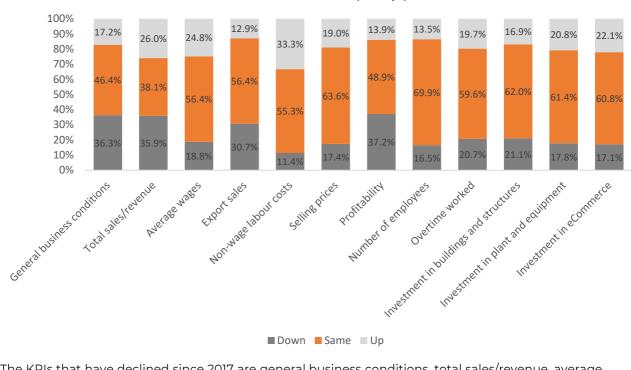

There is no comparison against Sensis for the local Council area so we have compared the results this year to 2017. The same percentage of businesses remain optimist but slightly more businesses are more pessimistic this year than previously.

Those expecting the local economy to weaken are more likely to be Glenelg and Seacliff businesses, those businesses who have operated for 11+ years, medium sized businesses, those businesses turning over \$1 - \$50 million, and the Retail Trade. Those expecting the local economy to stay the same are those businesses in Brighton and Seacliff and those that have been in business for 0-5 years and those turning over less than \$500,000pa.

Those expecting the local economy to be stronger are more likely to be businesses in Somerton Park, medium sized businesses, those turning over \$500,000=\$1 million pa and those in the Retail Trade.

Local area KPIs for Q3 2019 (Jul-Sept) n=301

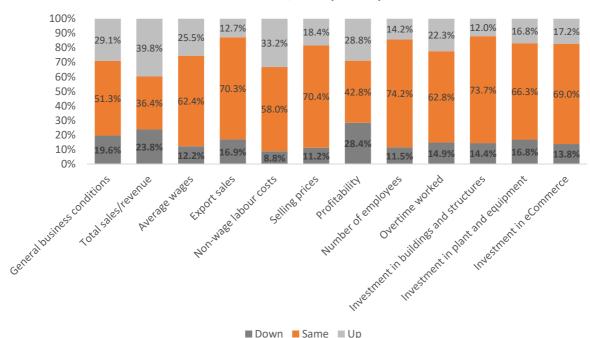

■ Down ■ Same ■ Up

The KPIs that have declined since 2017 are general business conditions, total sales/revenue, average wages, export sales, non-wage labour costs and selling prices. The KPIs that have improved this round of research include number of employees, overtime worked, investment in building and structures, investment in plant and equipment and investment in eCommerce. The only KPI to remain the same was profitability which has seen a very slight improvement. We applied an index to the statistics. An index of anything over 50 indicates that it is improving, an index of anything less than 50 shows it is declining and a score of exactly 50 shows no movement.

| | Up | Same | Down | Local Index Q3 2019 |
|--|-------|-------|-------|------------------------|
| General business conditions | 17.2% | 46.4% | 36.3% | 59.44 |
| Total sales/revenue | 26% | 38.1% | 35.9% | 54.95 |
| Average wages | 24.8% | 56.4% | 18.8% | 46.99 |
| Export sales | 12.9% | 56.4% | 30.7% | 58.91 |
| Non-wage labour costs | 33.3% | 55.3% | 11.4% | 39.03 |
| Selling prices | 19% | 63.6% | 17.4% | 49.21 |
| Profitability | 13.9% | 48.9% | 37.2% | 61.65 |
| Number of employees | 13.5% | 69.9% | 16.5% | 51.50 |
| Overtime worked | 19.7% | 59.6% | 20.7% | 50.47 |
| Investment in buildings and structures | 16.9% | 62.0% | 21.1% | 52.11 |
| Investment in plant and equipment | 20.8% | 61.4% | 17.8% | 48.51 |
| Investment in eCommerce | 22.1% | 60.8% | 17.1% | 47.51 |

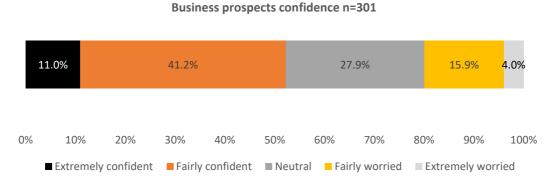

Local are KPIs for Q4 2019 (Oct-Dec) n=301

The final quarter of 2019 is predicted to see improvements in general business conditions, total sales/revenue, profitability and overtime worked. Average wages, export sales, non-wage labour costs, selling prices and number of employees are all expected to remain the same. Investment in buildings and structures, investment in plant and equipment and investment in eCommerce are all expected to be down.

| | Up | Same | Down | Local Index Q4 2019 |
|--|-------|-------|-------|------------------------|
| General business conditions | 29.1% | 51.3% | 19.6% | 45.28 |
| Total sales/revenue | 39.8% | 36.4% | 23.8% | 42.01 |
| Average wages | 25.5% | 62.4% | 12.2% | 43.35 |
| Export sales | 12.7% | 70.3% | 16.9% | 52.12 |
| Non-wage labour costs | 33.2% | 58% | 8.8% | 37.82 |
| Selling prices | 18.4% | 70.4% | 11.2% | 46.40 |
| Profitability | 28.8% | 42.8% | 28.4% | 49.81 |
| Number of employees | 14.2% | 74.2% | 11.5% | 48.65 |
| Overtime worked | 22.3% | 62.8% | 14.9% | 46.28 |
| Investment in buildings and structures | 12% | 73.7% | 14.4% | 51.20 |
| Investment in plant and equipment | 16.8% | 66.3% | 16.8% | 50.00 |
| Investment in eCommerce | 17.2% | 69% | 13.8% | 48.28 |

Q14. Thinking about the next 12 months, how confident do you feel about your business prospects?

Over half of the businesses surveyed indicate some level confidence with just over a quarter being neutral and two in ten feeling worried. This is an improvement on 2017 where more people were worried and less were neutral. Roughly the same are confident this year compared to 2017.

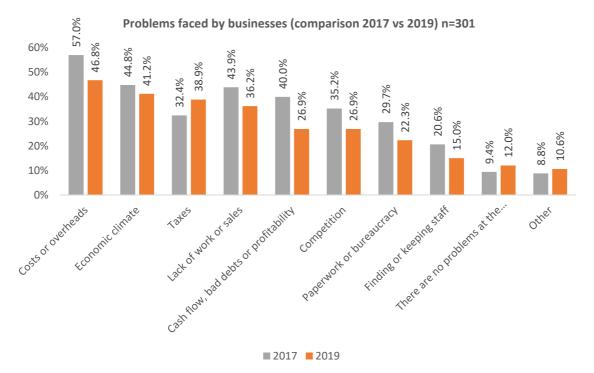

| Confidence level | Local Council Area | South Australia | National |
|------------------|--------------------|-----------------|----------|
| Confident | 52.2% | 55% | 56% |
| Worried | 19.9% | 21% | 20% |
| Net balance | +32.3 | +34 | +36 |

The local Council area is very similar in confidence results as recorded in the September quarter National Sensis Business Index and has improved on the 2017 results that showed a greater percentage of businesses worried (23.9% compared to 19.9% this year).

Those more likely to be confident are Somerton Park businesses, medium sized businesses, those turning over \$500,000-\$1 million and \$2-\$5 million, and those offering Education & Training, Electricity, Gas, Water & Waste Services, Health Care & Social Assistance, Professional, Scientific & Technical Services, Rental, Hiring & Real Estate Services and Other Services.

Those more likely to be worried are Glenelg businesses, those who have operated for 6-20 years, those turning over less than \$500,000 and those offering Arts & Recreation Services, Financial & Insurance Services, Manufacturing, and Retail Trade.

Q15. As far as business is concerned, what problems, if any, are you facing at the moment?

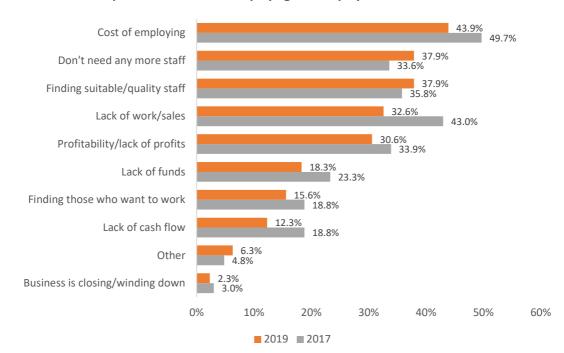

Interestingly all business issues have declined this year compared to 2017 except for taxes however the order of issues has remained the same. The small number of others (32 comments) comprised:

- Changes in legislation making it harder to be profitable
- Council rates too high
- Don't know/not sure (5 responses)
- Drug addicts and trouble in area
- Foot traffic, getting people down to Jetty Rd
- Hard to get funding due to the royal commission in banking so can't grow and move the business forward
- Holdfast Council providing no and/or actively preventing trading opportunities in Holdfast Bay council area

- Increased rent
- Intrastate opportunities
- Lack of car parking and car yard using all available car parking in the area
- Lack of foot traffic
- NBN phone line drop outs constantly
- Online sales
- Parking
- Rent (2 responses)
- Rent of Shops very high
- The uncertainty of the hove railway crossing project
- Work is seasonal

Q16. What are the barriers to taking on new employees?

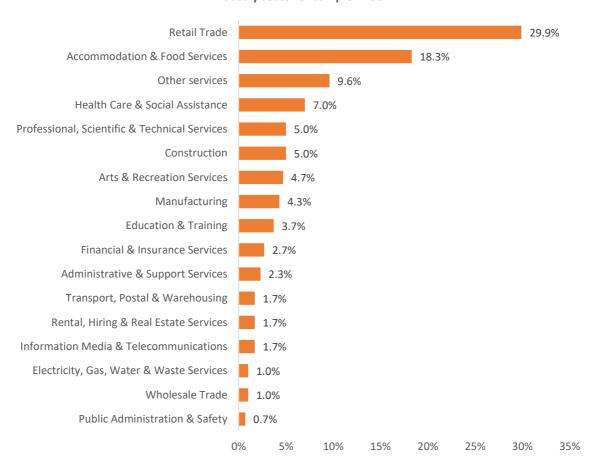

Comparison of barriers to employing new employees 2017 vs 2019 n=301

There are some very significant differences between the key barriers to taking on new employees between 2017 and 2019. This year cost of employing is a barrier followed by finding suitable/quality staff and don't need any more staff. There were a small number of other responses that comprised:

- Government audit costs
- Loans from banks to renovate business
- None/no barriers (4 responses)
- Never employed anyone
- Possible sale of business
- Rent cost too much
- Time to generate more work
- Uncertainty around new legislation over next 12 months

Q17. What industry sector do you fall into?

Industry sector of sample n=301

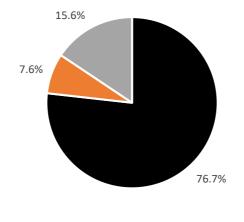

The sample is similar to the previous survey in 2017 but with less businesses in the Retail Trade and Accommodation & Food Services.

Others comprised:

- Alternative therapy
- Autonomous vehicle approvals
- Beauty Therapy (3 responses)
- Commercial cleaning
- Funeral Services
- Hair and beauty (3 responses)
- Health and Wellbeing (2 responses)
- Massage (2 responses)
- Mining (2 responses)
- Retail and Services
- Service
- Skin clinic

Q18. Do you generally believe that profitability is declining in the retail sector at the moment?

Belief that profitability is in decline in the retail sector n=301

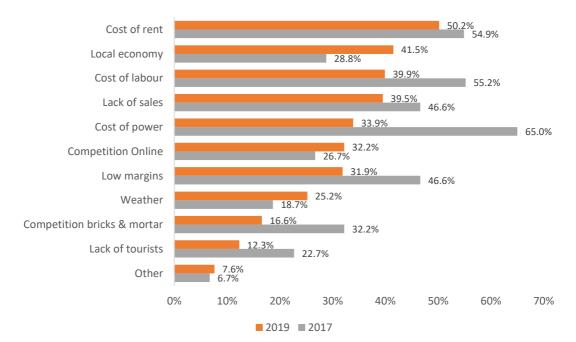

Again this year, the majority of people believe that profitability is declining in the retail sector at the moment with 8% disagreeing and 16% who do not know or are not sure. These figures are extremely close to the results from 2017 but people this year are more likely to agree than not know obviously being affected by publicity to the affirmative.

Those more likely to agree are businesses in Hove, businesses that have operated for over 20 years, all businesses turning over \$10 million or less, and those offering Administrative & Support Services, Financial & Insurance Services, Health Care & Social Assistance, Public Administration & Safety, Retail Trade and Transport, Postal & Warehousing.

Q19. Are any of the following affecting /impacting on your profitability?

Issues affecting/impacting on profitability n=301

Cost of rent is the most common factor affecting profitability. This scene is completely different to that of 2017 where the top response affecting profitability was the cost of power followed by cost of labour and then cost of rent. The other responses comprised:

- Big stores are undercutting the smaller guys. And it doesn't help that they can now open when they want
- Council Rates
- Government costs
- Holdfast Council proving support only to Jetty Road traders at expense of other trading areas and mobile businesses operating in area
- Investment in technology/ advances in technology
- Lack of support from local government and high local government costs.
- None (6 responses)
- Parking
- Regulations
- Tax
- Don't know/not sure
- Working to retirement

Cost of rent is more likely to have affected businesses in Glenelg, those operating for 6-10 years and over 20 years, those turning over \$500,000-\$1 million and \$2-\$5 million, and those offering Accommodation & Food Services, Arts & Recreation Services, Manufacturing, Retail Trade and the Wholesale Trade.

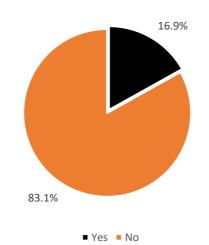

Local economy is more likely to have affected Hove businesses, those who have operated for 11 years or more, those turning over \$500,000-\$1 million, and those offering Accommodation & Food Services, Administrative & Support Services, Financial & Insurance Services, Manufacturing, Rental, Hiring & Real Estate Services and the Retail Trade.

Cost of labour is more likely to have affected those businesses that have operated for over 20 years, medium sized businesses, those turning over \$500,000-\$5 million, and those offering Accommodation & Food Services, Electricity, Gas, Water & Waste Services, Financial & Insurance Services, and Manufacturing.

Lack of sales is more likely to have affected those businesses in Somerton Park, those operating for 11-20 years, smaller turnover businesses less than \$1 million in revenue, and those offering Arts & Recreation Services, Electricity, Gas, Water & Waste Services, Retail Trade and Transport, Postal & Warehousing.

Q20. Have you done any business with Council in the last 12 months?

Incidence of doing business with Council in last 12 months n=301

The vast majority of businesses have not done business with Council in the last 12 months. This is similar to the 2017 incidence where 19% had and 81% had not. Those more likely to have dealt with Council are Somerton Park businesses, those that have operated for 6-10 years, businesses turning over \$1-\$5 million and \$10-\$50 million, and those offering Accommodation & Food Services, Arts & Recreation Services, Construction, Manufacturing, Professional, Scientific & Technical Services and Rental, Hiring & Real Estate Services.

If businesses had dealings with Council, they were asked to specify what these dealings were:

• Advertised our services through a council initiative but no direct (sales) business with the council

- All the time
- Applications
- Applied for expansion approval
- Approached Councillors re sand groins and beach protection
- Bookings, events
- Building application

- Building approvals (2 responses)
- Building modifications
- Building Project
- Collaborate on arts/community projects
- Complaints
- Customer
- Development approval
- Drafted documentation to seek approval of South Esplanade trial of automated shuttle.
- Engaged with the council on liquor license and premises
- Engineering design services
- Event stalls
- Events
- Front shop grant
- General printing and signage.
- Grant applications
- Involved with business awards & newsletter
- Jetty Road street party
- Jetty Road Traders
- Licenses and Permits
- Local mag? Someone came in to take a picture. I didn't see it anyway
- Outdoor tables
- Paid council rates on behalf of landlords
- Paid licenses
- Permits
- Planning and developing
- Planning Development Applications
- Plans for shed to be built
- Product days
- Programmed Musicians, Addressed at PD Workshops, Contributed to Arts & Culture Strategic Plan

- Rates, Library, Bus
- Redeveloping property
- Repairs
- Shopfront Grants
- Sit on committees street parties
- Small business grant and interaction with arts planning staff
- Street party
- Street party & rates
- Use of facilities and cemetery's
- Waste audits
- We lodge Development Applications with Council regularly.
- We print for the council regularly
- We were given a fine, with no real solution to rectify the problem.

• Wish we could, but council events section and/or powerful Jetty Road traders lobby have prevented this

Q21. On a scale of 0 to 10, where 0 is poor and 10 is excellent, how would you rate your experience in doing business with Council?

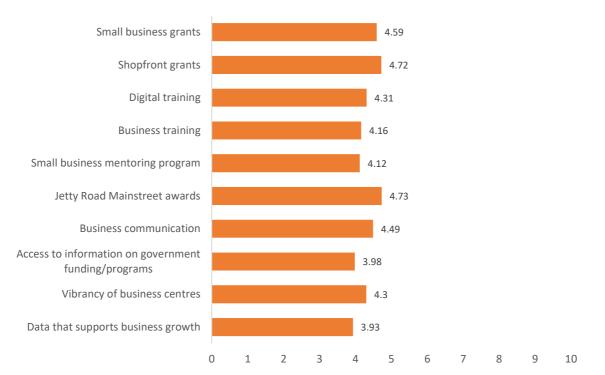

Rating the experience in doing business with Council

The ratings ranged from a low 4.28 to 6.05 – poor to average.

Q22. On a scale of 0 to 10, where 0 is totally dissatisfied and 10 is totally satisfied, how satisfied are you with Council's support for business in the area?

Satisfaction ratings for Council's support for business in the area

These are disappointing scores for Council's support for business in the area with all scores being poor. We suspect that the the scores reflect a low level of awareness.

Q23. Do you have any suggestions or ideas on what strategies the City of Holdfast Bay can implement to support better business conditions for you?

185 respondents chose not to provide a response to this open ended question but 116 people chose to respond. The common themes amongst these comments is the perennial parking problems, Jetty Road Glenelg looking tired and dull, better communication with business of grants and other assistance, Council needs to do more to attract business to the area, generally offer more support for business and some safety concerns in and around Glenelg. The verbatim comments are as follows:

- A need to understand how many varied operators they have in the area
- Accountability by landlords to maintain their buildings and a rated structure for what they can charge per square metre. Take a real interest in the mix of businesses in the area, not just fill the shops for the sake of it. How many coffee shops do we need yet you can't even buy a pair of bathers on Jetty Road a beach suburb for goodness sake!
- Advertising, attract tourist, allow longer hour for parking, more activities in the middle part of Jetty Road

- Advertising the Jetty Road shopping area.
- Advising businesses of grants and other information
- Allow larger business signage
- Assist in disability holistically and the NDIS

- Attract people to hold fast shores
- Better parking opportunities for business
- Can I put the business sign along the road?
- Car parking needs more advertising for interstate visitors. Clean up of Brighton Rd end.
- Care with parking restrictions which do not allow staff and visitors to park near businesses
- Clean the street up. Get better canopies on restaurants in Moseley Square. Present the area little more stylishly as it is the beach area of Adelaide especially for the tourists
- Closing off Jetty Rd to traffic from Byron Street, still maintain the trams and this allows a safer shopping precinct.
- Communication with business and get some suggestions
- Continued support of local businesses.
- Council fee to wave off for displaying goods on street
- Decrease the 1hr parking on Broadway our clients stay 2 hours sometimes having multiple services parking is a worry for them. Broadway in general is a lot busier now but it's not increasing sales for us. Help from council getting people visiting Broadway spending in the shops not just congesting the area parking to walk their dogs and get coffees.
- Decrease the rent so that we can decrease the price of items and sales can be increased.
- Do away with the main street board
- Do not make it a mall. Jetty Road needs a clean and freshen up.
- Ease of parking over peak trading periods e.g. staff parking permits for parking on side streets
- Ease the pressure on business taxes, fees, rates.
- Encourage more people to the area to be spending money locally
- Encouragement of small businesses, opportunities to showcase unique businesses locally
- Events, promotions
- Focus on developing Moseley Square more (beach area) instead of just Jetty Rd (Main Street)
- Free on street parking
- Free parking 24/7 in the Brighton area to allow more foot traffic
- Free parking permits for business owners / managers
- Free parking would be great all day.
- Glenelg and Jetty Road is looking very tired and run down, lots of business have popped up and gone with 1-2 years. Unfortunately when most of the main strip is owned by a couple of millionaires is not great for small businesses
- Go out and speak to shop owners and understand the need they all have in order to increase business profitability. Remove Centrelink money from youngsters as they don't want to work as there's no incentives for it.
- Greater engagement, initiatives and communication with businesses
- Help small business out not only big names
- I cannot think of any suggestions. All seems to be working ok.
- I function as an independent serving both private and Government sectors.
- I know it's a hard task and I constantly see council workers on the job throughout the Jetty Road precinct but there is an issue with the general cleanliness of our Main Street community and the surrounds. I do see this as an issue and one that becomes more prominent during the summer season as there are more tourists whether interstate or from other suburbs. Glenelg used to be a place of pride and almost a boutique destination for want of a better word, however I do see the

cosmetic value decline and many of my patrons confide they do not always feel safe on Jetty Road especially at nights and particularly in our peak season.

- If tram ran around to Anzac Highway and back on to Brighton Road it would service Glenelg residents to get around free up Moseley Square for people to dine in quieter space and there would be transport for the oldies to get to the shops big infrastructure change but would work better I think.
- Implement programs over winter to increase visitors to the area
- Improved internet speed
- Incentivise small business, to build community and culture. Limit red tape for new and proactive business models. Work together with small business to achieve council's goals.
- Include real estate in awards for Jetty Road awards
- Include the top end of the street in your vision
- Jetty Road needs a revamp to attract tourists and more importantly locals to the area for everyday shopping needs. It looks very tired. The streetscape is coming along but the general trading conditions has meant that the shopfronts are largely tatty. Parking is the perennial problem.
- Jetty Road needs to be revamped and uplifted as it is falling behind Henley Beach, Jetty Road Brighton, Harbour Town etc. Landlords need to be more accountable and not just take the rent and look at the mix of businesses in the area.
- Keep an eye on parking limits in our vicinity
- Less cost for GST
- Less hurdles and red tape when applying to upgrade or renovate your business property/buildings, funding or grants for small business so there are other avenues besides banks to grow your business
- Let all business owners know when local events are happening e.g. Fun runs, car shows
- Make information more easily available for small business and advertise where small business can find information on grants, loans, and support.
- Make Landlords responsible for maintaining their premises.
- Marketing
- Meet us
- More advertising better internet sources
- More advertising on Jetty Road Moseley Square for Marina as I find many people still have no idea we are here
- More communication on how you support local businesses. We have never heard about the shop front grants or business mentoring and would like to know more.
- More events
- More events throughout winter trade
- More events to attract people coming from other places.
- More focus on all of Glenelg not just Moseley Square
- More free parking.
- More grants
- More parking, better relationships with business along Jetty Road.
- More police patrol lots of squatters/intoxicated people that have entered the store becoming a safety issue or hung near our back door leaving drugs/faeces

• More police presence

- More small business grants and funding opportunities
- More support via social media and connecting with younger businesses and business people to help them thrive and grow and keep them running in the early days
- More transparency with business owners
- Move centre link to remote location off Jetty Rd to much disturbance
- Need more bins. Need to clean graffiti.
- Need to bring more attractions on Jetty Road Glenelg. Businesses are struggling a lot on here, council needs to help and support to bringing more people on Glenelg.
- Needs a good clean up and the Xmas decorations are really poor
- No I think in general the Holdfast Bay is the best council we work with in comparison to our other locations
- No. Continue more of the same. Target marketing that doesn't reflect seasonal changes encouraging more stability of services at the bay
- Not reduce amount of car parking along Jetty Road. Clean up the pavers along Jetty Road more often. Enhance Jetty Road with more accent lighting. Jetty Road is the HUB of Glenelg and it needs TLC at the moment and is grotty and dull.
- Nothing that would affect our business directly but parking is an ongoing issue down the bay, I sometimes go elsewhere for certain shopping items as I know parking it too difficult at Glenelg.
- Parking
- Parking is a problem need longer than 2 hour limit. The street needs a good clean up. Remove the homeless and indigenous people to a more suitable area. Xmas decorations are very average. Not a classy look at all. Give it a more modern update. Advertise. Give people a reason to want to come to Glenelg again. It used to be a vibrant place to visit. Not any more
- Parking spaces gradually disappear when we need more e.g. Colley Terrace, Durham Street
- People begging for money
- People find parking a problem. Need more to get more visitors.
- Planning and development of Child Care Centres are saturating the area with those centres already in existence not full. No need for these buildings to be going up. Discounted Council Rates for Not-For-Profit Services.
- Please less of the same shops cafe hairdresser etc.
- Please think of clothing retail more not just beach and restaurants. And the fact that Jetty Rd goes past Moseley Street.
- Promote other streets not only Jetty Road
- Promoting business which create and reinforce the positive Holdfast Bay image. This creates a good place to work and a good community to have your business in. e.g. no vaping stores, XXX massage parlours etc.
- Promotion of local business
- Provide more free parking time slots, instead of 24 hours parking charges, to attract more people visiting to Glenelg.
- Reach out to local businesses to discuss what opportunities are available for interaction
- Reduce outdoor fees and increase parking for customers
- Reduce rates, improve capital works projects, monitor & enforce regulatory noncompliance by constituents

• Regular face to face contact with retailers

- Remove red tape and ensure that areas are well maintained, including alleys.
- Remove restricted time parking on Jetty Road at Brighton. If the Hove Station is closed then there will be even less parking for business customers because commuters will need the parking spaces at the Brighton Station.
- Signage Industrial area/precinct modern clear for consumers to locate area and investigate. Tidy up on streets/businesses externals in precinct to be clean and tidy (more inviting). Parking is a huge problem in the industrial precinct for staff and customers.
- Simplify
- Stop focus only on Jetty Road traders and their powerful lobby influence
- Stop giving work to large corporations and making it impossible for local business to even be given a chance to tender. In so many cases, local businesses can provide a better and cheaper solution else it would not be in business as other business would not use them.
- Stop traders and staff parking in the street by increasing fines for replete offenders
- Street footage. When we have had people steal from us, police are unable to do anything as there is no footage on the streets
- Streetscape, promotion through socials
- Support and marketing Jetty Road
- Take away the cost of outdoor dining. It is necessary for our business to survive and our rents continue to rise.
- They need to create more vibrancy and attract different retailers. Maybe have, more of a quirky atmosphere.
- Things are good
- Too busy working to think about the council
- Unified precinct
- Upgrade overall street environment
- Upgrade and widen the footpaths. Lighting of the street speakers in the street for a village feel. Better Xmas decorations. Create a better retail mix.
- Use local businesses for services
- We need support and to feel safe for ourselves , businesses staff and potential tourists and clients, GLENELG is full of trouble and no police around to get rid of them , GLENELG street also needs to be done up, street looks run down
- We need to focus more on the week after week shoppers and not so much on the tourist market. The tourists are the cream of the crop. It's the weekly shoppers that keep us in business.
- Willingness to invest in more autonomous vehicle trials
- Would like more shops front grants
- Yes, would like Council to undertake surveys that are relevant and that they can act on to better business, better the area, and the city. Council to act on the outcome of genuine feedback.

5. Tabulations

Q1. In which suburb is your business located?

| In which suburb is your business located? | Glenelg (including Glenelg East, Glenelg South and Glenelg North) | 176 58.5% |

Q5. What ratio of each of the following do you employ on a full time basis to the nearest 10 percent?

Gender

As ratios are used to make comparisons between two things and non-binary was added to this question as a third option a true ratio cannot be established with the inclusion of non-binary. Therefore those nominating that they do not align to either gender will be removed from further ratio calculations in this instance.

| Male - Ratio | 5.06 |
|--------------------|------|
| Female - Ratio | 5.99 |
| Non-binary - Ratio | 1.16 |

Q23. Do you have any suggestions or ideas on what strategies the City of Holdfast Bay can implement to support better business conditions for you?

Q24. If you would like to be entered in the draw to win a shopping voucher valued at \$200 please provide your name and email address.

6. Questionnaire

| | The City of Holdfast Bay has commissioned Intuito Market Research to conduct a study amongst businesses across the Council precinct. Your feedback is extremely valuable and will enable Council to assess the needs of the business community. This local business survey is conducted regularly and when answering the questions we encourage you to look back over the last 12 months and assess accordingly. The survey should be completed by a person of authority in your business (Owner, Manager, Senior Staff Member) and should only take around 5 minutes. To thank you for your time and views there is an opportunity at the end of the survey to enter a draw to win a shopping voucher valued at \$200. Entry details will be separated from responses to ensure respondent anonymity. If you have any questions related to the survey please contact Intuito Market Research on 8331 2228 during office hours or email info@intuito.com.au. |
